

Midway Sanitation

Interlaken homes are connected to Midway City's sewer system via a network of main and lateral lines. The main lines generally follow Interlaken's roadways, as evidenced by the metal man hole covers placed in the asphalt roadways. The lateral lines are less obvious to find, and may require some digging for location. The town does have a map that can help with location. Prior to digging, all underground connections must be approved by the town, and go through a Blue Stakes inspection.

Billing for Midway Sanitation is on a quarterly (3-month) basis. Contact Midway Sanitation directly if you have any questions or concerns at 435-654-3223.
